Drawing Pencil Set Value & Shading Worksheet

Value Scale value is the lightness or darkness of a color. A Value Scale shows a SMOOTH transition of values that change from light to dark or dark to light.

Drawing Pencil Scale
B = Black (DARK) The higher the number, the DARKER the value.
H = Hard (LIGHT) The higher the number, the LIGHTER the value.

9B 8B 6B 4B 2B B HB F H 2H 4H 6H 8H 9H

Practice Shading with Drawing Pencils

In each box below, use the correct drawing pencil to apply shading to each box with a value scale that is darkest on the left and gets lighter as you go to the right of the box. Fill only the boxes that your pencil set contains.

9B	Darkest	Lightest	F	Darkest	Lightest
