

Pop Art Portrait Photos: How To Edit in Photoshop

1. Open Photoshop Program through start menu: >ALL PROGRAMS>ADOBE DESIGN PREMIUM CS6>ADOBE PHOTOSHOP CS6
2. Download/open photo image file and drag into Photoshop until cursor becomes a "+" OR, you can go to FILE> OPEN> and then find your image file and open
3. Black & White photo:
IMAGE>MODE>GRAYSCALE>DISCARD
4. Auto contrast photo:
IMAGE>AUTO CONTRAST
5. Posterize photo:
IMAGE>ADJUSTMENTS>POSTERIZE> 4-6 (*the number you enter will represent the number of values you are breaking your image down to. Depending on the lighting in your original photo, you will want to play around with and adjust this number to get the best results*)
6. "SAVE AS" a **jpeg** file and email as an attachment of your edited photo to yourself
7. PRINT!
