Free Disk Space:

- Drawing
- 2D
- 3D

Tips for Photographing your Artwork

- Make sure your artwork is sharp and in clear focus
- You will want a clear background and balanced lighting to reveal best of work
- Avoid background clutter that distracts from your artwork
- Avoid backgrounds that compete with sculptural subtleties (3D)
- If choosing to submit more than 1 photograph of an artwork it must provide new visual information to evaluators

*3D: Your photographs of your work are especially important, as you will not be submitting any of the physical pieces to the College Board. You will only be evaluated based on the visual information of your artwork from your digital submission photos for ALL portfolio sections.
